To The Trade:

Embossed Mouldings have long held preference, by the leading designers and manufacturers of Furniture, as expressive of the period and style they were wanting to produce.

The following pages of patterns of Embossed Mouldings give you a wide preference and you will find designs to meet every requirement. The sizes as shown are exact and while we have tried to show all the widths and thicknesses we produce, space prohibits us from giving additional variations.

We are mindful of the need for new patterns of Embossed Mouldings and are continually working on new ideas, as well as the combination of different patterns in order that we can give every assistance possible in trimming new suites which the designers are in the process of drawing. We have made constant improvements over the last few years in order that we can produce a better quality of embossing.

With the trend to lighter finishes, you will find that we are able to give you Embossed Mouldings light enough to take a natural finish along with other woods, and, at the same time, we are able to get as much detail with deeper cuts. This affords designers to get the desired effects because the color of the Embossed Moulding blends favorably after being finished into the case or piece for which it is intended.

We appreciate the fact that there is a constant change in the trend of design and it is our purpose to produce patterns in keeping with the trend, as we see it. At the same time, any special mouldings which will aid the designers and manufacturers are welcome, so that we can cooperate to the fullest extent.
